

## THE J.G. WENTWORTH COMPANY

### Pre-Settlement Funding Fact Sheet

Peachtree Financial Solutions (“Peachtree”) provides pre-settlement funding to plaintiffs with unsettled lawsuits, thereby providing them with some liquidity while they await settlement proceeds. Most common in personal injury cases, this option allows the claimant to execute their case without the pressure to settle quickly due to financial reasons.

#### Why would an individual pursue pre-settlement funding?

- Pre-settlement funding can be beneficial when a plaintiff has a pressing medical need, is unable to work as a result of the claimed damages, or is unable to meet basic living expenses during prolonged litigation.
- Pre-settlement funding provides needed cash to the claimant to lessen the pressure on them, while they are pursuing their case.

#### What cases or claims are eligible for funding?

- Peachtree will only work with established and experienced law firms.
- The claim must be in an eligible state, have strong liability, and clear damages.

#### What is the cost?

#### What is the process of obtaining pre-settlement funding?

- To obtain pre-settlement funding, customers must contact Peachtree to speak with a representative who will assess the nature of their case.
- Once a Peachtree representative has assessed the case, the attorney representing the case must then submit an application on behalf of the customer.
- Peachtree reviews each case individually, evaluating the claimant’s attorney’s history, insurance provider, liabilities, medical records, and incident reports.
